Work Experience

Staff Frontend Engineer @ AJNS New Media GmbH

Website: www.kitchenstories.com

April 2023 — Present

Senior Frontend Engineer

November 2021 — April 2023

- Managed junior and mid-level developers and offered continuous advice, guidance, and mentorship on duties and best practices
- Migrated legacy Vue/Express app to React/Nuxt.js/TypeScript which resulted in increased performance and decreased bounce rate
- Helped established modern software development practices such as TBD, Architecture Guild and AB-Testing
- Added Playwright end-2-end tests to the applications as well as CI/CD integration
- Communicate and collaborate with multi-disciplinary teams of engineers, designers and stakeholders on a daily basis

Frontend Engineer @ VisableLabs GmbH

Website: www.wlw.de

August 2019 — November 2021

- Developed and maintained purchaser facing frontend applications in Vue/Nuxt.js which resulted in a 2x KPI's increase
- Developed and maintained a Shared Component Library with Vue + Storybook
- Created many unit and E2E tests with Cypress.io + Jest
- Architected solutions for new features and refactors
- Developed and maintained an internal SSR AB-Testing split library which led to an increase in AB testing, resulting in at least 4 ab tests per month.

Frontend Engineer

August 2018 — August 2019

- Worked with private clients on UI/UX + Development primarily using React/Next/Gatsby, CSS-in-JS and Contentful/Sanity CMS
- Worked with various private clients on feature development or 3rd party API's integration
- Interfaced with clients on a weekly basis, providing technological expertise and knowledge

My Projects

Bugsnap

Website: bugsnap.io

Bugsnap is a user-friendly tool designed to revolutionize the way teams handle bug reporting. By effortlessly capturing visual errors and providing comprehensive data insights, it not only simplifies the reporting process for users but also significantly enhances the debugging experience for developers.
